What can I volunteer to do?

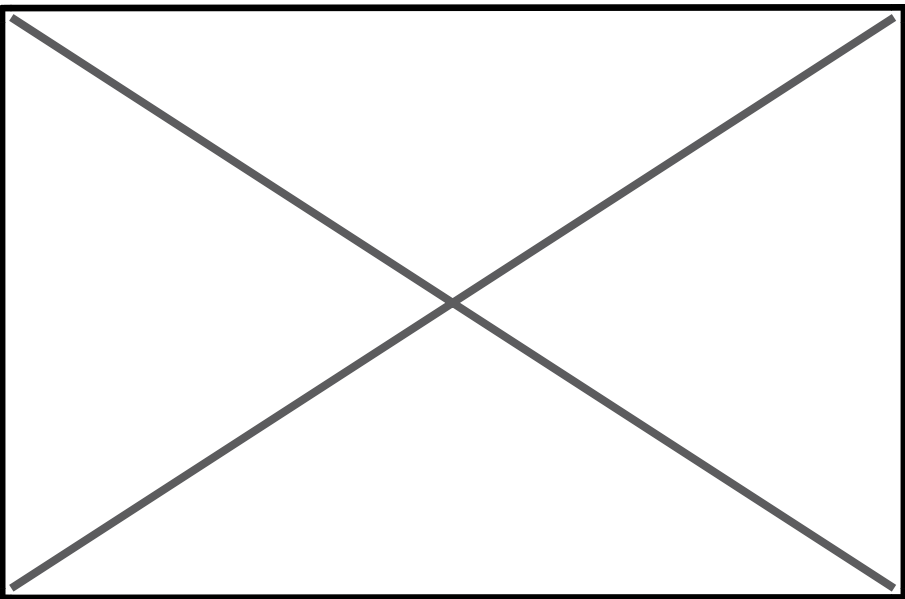

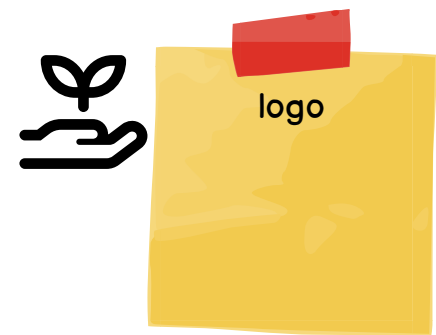

Gardening

Can you help someone who just needs to stay on top of their garden?
Or even do some major work for someone who needs a dangerous tree removed?

Companionship or reading to the elderly

Can you sit and talk to someone who is lonely and just needs companionship?
Or even read to someone who is loosing/lost their sight?

Create profile

Once you have created your profile it will be reviewed by a co-ordinator and if we have all the needed information your profile will go live to be matched

Volunteering Village - where compassion empowers action

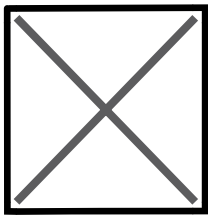

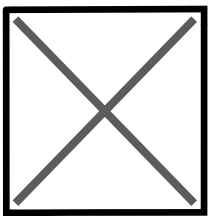

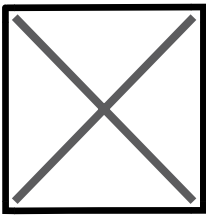

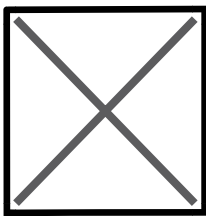

How it works?

You create a profile indicating what availability you have weekly and what tasks you are happy to be involved in

Once you have created your profile it will be reviewed by a co-ordinator and if we have all the needed information, then your profile will go live - to be matched

When a coordinator gets a request they will search the profiles and match the most appropriate person and put them in contact

After you have assisted them the coordinator will check in with the requestor to see that everything went OK.

You will get a number of helping hands depending on how many times you have helped
